

# STEVEN PUCKETT

Collinsville, OK 74021 • (918) 230-6879 • [steven.k.puckett24@gmail.com](mailto:steven.k.puckett24@gmail.com)

## OBJECTIVE

Motivated Software Engineer with a strong foundation in C#, .NET Core, and web development, eager to contribute to innovative software solutions in a dynamic, collaborative environment. Passionate about building intuitive, user-friendly tools that enhance functionality and user experience, while continuously growing technical skills in an agile setting.

## EDUCATION

### Bachelor of Science in Computer Science

University of Oklahoma, Norman, OK | 2007–2012

## PROFESSIONAL EXPERIENCE

### Software Engineer

PCNA | Feb 2025 - Aug 2025

- Developed in-house Blazor web applications using C#, .NET Core, and SQL Server, delivering intuitive solutions to support critical business needs.
- Debugged and optimized stored procedures for B2B data pipelines, ensuring reliable data flow for consumer product websites.
- Collaborated with cross-functional teams to implement feature enhancements, improving user experience and operational efficiency.

### Software Engineer

WireBrain | Oct 2022 - Jun 2024

- Modernized Blazor Server UI with clean, user-friendly layouts, enhancing visual flow and usability for internal business processes.
- Built and maintained backend APIs using C#, ASP.NET Core, and Web API, exceeding client requirements and improving platform scalability.
- Implemented CI/CD pipelines with Azure DevOps and Git branching strategies, reducing bugs and streamlining agile development sprints.

## Software Engineer

*ConnectShip / Oct 2019 - Oct 2022*

- Developed and enhanced Transportation and Logistics software using C#, .NET, and Python, integrating new carrier support to improve platform functionality.
- Built and maintained APIs to support seamless data exchange for logistics applications, ensuring robust backend services.
- Collaborated in agile team settings, participating in code reviews and brainstorming sessions to resolve complex issues.

## Software Developer

*Executime / May 2012 - Oct 2019*

- Performed full-stack development using Java, JSP, and SQL, delivering scalable applications for hours reporting tailored to client needs.
- Optimized application performance by addressing bottlenecks in SQL queries and backend logic, improving user experience.
- Mentored new hires, promoting best practices and fostering a collaborative team environment.

## SKILLS

- Languages & Frameworks: C#, .NET Core, ASP.NET Core, Web API, Blazor, HTML, CSS, JavaScript, Java, JSP
- Databases & Tools: SQL Server, Entity Framework Core, Dapper, Hibernate
- DevOps & Version Control: Azure DevOps, CI/CD Pipelines, Git (branching, code reviews)
- Methodologies: Agile Development, Clean Architecture, Domain-Driven Design, Mediator Pattern
- Other: PowerAutomate, RESTful APIs, Team Collaboration, Mentorship
- Soft Skills: Eager learner, clear communicator, collaborative problem-solver

## ADDITIONAL INFORMATION

- Location: Reside in Collinsville, OK (Greater Tulsa area).
- Eligibility: Authorized to work in the U.S. without sponsorship.
- Interest: Thriving in a team-focused, mission-driven environment to deliver impactful solutions.
